

CUSTOM SIZE - SAW CUT PLATE

Available in Gray, 65-45-12 and 80-55-06 Ductile Iron

From one piece to production quantity, material is saw cut from large billets to your exact dimensional requirements. Simply give us your "finish sizes" and we will provide you with cut parts guaranteed to clean up at your finish size.

We will add from 1/8" to 1/4" machining stock per dimension, depending on the size of the part, to allow you minimal machining to get your finish size.

As-Cast Billet size to cut from:

Gray Iron - 18" x 24" x 72"

65-45-12 - 18" x 24" x 72"

80-55-06 - 7.75" x 20.50" x 72"
